#### STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State	WASHINGTON
-------	------------

#### NURSING FACILITIES AND SWING BED HOSPITALS

Effective July 1, 2004

Section I. Introduction:

This State Plan Amendment (SPA) to Attachment 4.19-D, Part I, describes the overall payment methodology for nursing facility services provided to Medicaid recipients: (1) by privately-operated nursing facilities, both non-profit and for-profit; (2) by nursing facilities serving veterans of military service operated by the State of Washington Department of Veterans Affairs; and (3) by nursing facilities operated by public hospital districts in the state. Both privately-operated and veterans' nursing facilities share the same methodology. Facilities operated by public hospital districts share the methodology described below also, except for proportionate share payments described in Section XVII below, which apply only to them.

This SPA is submitted by the single state agency for Medicaid, the State of Washington Department of Social and Health Services ("department" below).

Excluded here is the payment rate methodology for nursing facilities operated by the department's Division of Developmental Disabilities, which is described in Attachment 4.19-D, Part II.

Chapter 388-96 of the Washington Administrative Code (WAC), chapter 74.46 of the Revised Code of Washington (RCW), and any other state or federal laws or regulations, codified or uncodified, as may be applicable, are incorporated by reference in Attachment 4.19-D, Part I, as if fully set forth.

The methods and standards used to set payment rates are specified in Part I in a comprehensive manner only. For a more detailed account of the methodology for setting nursing facility payment rates for the three indicated classes of facilities, consult chapter 388-96 WAC and 74.46 RCW, as amended for July 1, 2001, and July 1, 2002, rate setting. Except as otherwise specifically provided in Attachment 4.19-D, Part I, in case of conflict between the detailed provisions of these chapters and the comprehensive narrative description set forth in Attachment 4.19-D, Part I, the regulatory and statutory provisions shall prevail.

### STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State WASHINGTON

The methods and standards employed by the department to set rates comply with 42 CFR 447, Subpart C, as superseded by federal legislative changes in the Balanced Budget Act of 1997.

Section II. General Provisions:

Medicaid rates for nursing facility care in Washington continue to be facility-specific. Prior to rate setting, nursing facilities' costs and other reported data, such as resident days, are examined, to ensure accuracy and to determine costs allowable for rate setting. Washington continues to be a state utilizing facility-specific cost data, subject to applicable limits, combined with facility-specific and regularly-updated resident case mix data, to set rates.

A facility's Medicaid rate continues to represent a total of seven component rates: (1) direct care, (2) therapy care, (3) support services, (4) operations, (5) variable return, (6) property, and (7) financing allowance.

Medicaid rates are subject to a "budget dial", under which the department is required to reduce rates for all participating nursing facilities statewide by a uniform percentage, after notice and on a prospective basis only, if the statewide average facility total rate, weighted by Medicaid resident days, approaches an overall limit for a particular state fiscal year. For SFY 2005 (July 1, 2004, to June 30, 2005) the budget dial is \$142.04 per resident day, and for SFY 2006 (July 1, 2005, to June 30, 2006) it is \$148.11 per resident day. The budget dial supersedes all rate setting principles in chapters 74.46 RCW and 388-96 WAC.

The former split budget dial, having one weighted average limit for the non-capital components (direct care, therapy care, support services, operations and variable return) and another weighted average limit for the capital components (property and financing allowance) continued only through June 30, 2001. Effective July 1, 2001, one dial has been re-established for the total rate as indicated.

Direct care, therapy care, support services and operations component rates for July 1,

TN# 04-015 Supersedes TN# 03-020

Approval Date

Effective Date: 7/1/04

### STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State	WASHINGTON	

Effective July 1, 2002, all facilities having their direct care component rates established on case mix principles promulgated in law and regulation, receive a 2.3 percent upward adjustment for economic trends and conditions to their direct care component rates. Any facilities continuing to receive a "hold harmless" direct care component rate as of July 1, 2002, receive no upward adjustment for economic trends and conditions to their direct care component rates; however, the hold harmless provision is terminated effective July 1, 2002, also, so unless this scheduled change to the methodology is eliminated for some facilities, all facilities should receive the 2.3 upward adjustment for economic trends and conditions effective July 1, 2002.

Effective July 1, 2003, all facilities receive a 3.0 percent upward adjustment for economic trends and conditions to their direct care, therapy care, support services, and operations component rates established in accordance with chapter 74.46 RCW and an additional 2.4 percent upward adjustment effective July 1, 2004.

Section VI. Direct Care Component Rate:

This component rate, which averages approximately 55.5% of each participating facility's total Medicaid rate, corresponds to one resident day of care for in nursing services, including supplies, excluding therapy care services and supplies.

Effective July 1, 2001, direct care component rates are cost-rebased using adjusted direct care costs taken from 1999 cost reports, and applying case mix principles; however, the option to receive a "hold harmless" direct care component rate for qualifying nursing facilities will continue for the July 1, 2001, through June 30, 2002, prospective rate period. The direct care component rates of some facilities will be subject to upward adjustments for economic trends, as specified above, effective July 1, 2001, and July 1, 2002. (See Section V, Adjustments to Rates for Economic Trends and Conditions, above.)

Direct care components rates, as all component rates, are subject to potential prospective reduction under the budget dial described above.

The "hold harmless" direct care provision dates back to October 1, 1998, under which a facility's direct care component rate cannot fall below the facility's "nursing services" component rate in effect on September 30, 1998, subject to adjustment to eliminate therapy services and supplies.

Effective Date: 7/1/04
